

| <b>Sr. No.</b>          | <b>Name of Equipment</b>   | <b>Quantity</b>        |
|-------------------------|--|------------------------|
| 1                       | Venturimeter Test Rig  | 01                     |
| 2                       | Orifice Meter Test Rig   | 01                     |
| 3                       | Bernoulli's Apparatus  | 01                     |
| 4                       | Centrifugal Pump Test Rig  | 01                     |
| 5                       | Reciprocating Pump Test Rig  | 01                     |
| 6                       | Flow over Notches with all Accessories                               | 01                     |
| 7                       | Impact of Jet with all Accessories                                   | 01                     |
| 8                       | Reynolds Apparatus with all Accessories                              | 01                     |
| 9                       | Hydraulic Ram with all Accessories                                   | 01                     |
| 10                      | Metacentric Height of Ship   | 01                     |
| 11                      | Orifice & Mouthpiece Apparatus                                       | 01                     |
| 12                      | Losses in Pipe Fitting Apparatus with Accessories                    | 01                     |
| 13                      | Losses in Pipe Friction Apparatus with Accessories                   | 01                     |
| 14                      | Flow Visualization Apparatus   | 01                     |
| 15                      | Pelton Wheel Turbine Test Rig with all Accessories                   | 01                     |
| 16                      | Centrifugal Blower Test Rig  | 01                     |
| 17                      | Francis Turbine Test Rig   | 01                     |
| 18                      | Trial on Reciprocating Compressor                                    | 01                     |
| 19                      | Tilting Flume Model TF – 04 Recirculation Type With Necessary Models | 01                     |
| 20                      | Lutron make: Digital Non-Contact Type Tachometer – 2234-C            | 01                     |
| <b>Total Investment</b> |  | <b>Rs. 08,90,470/-</b> |
